PCSO Wright - North Yorkshire Police
PCSO Wright has been observing morning drop off and pick up times over a number of days and his report is as follows:-

"In 2019, Sharow benefitted from the creation of the new play park and parking area, providing a secure and safe area for families to park and use the facilities. Having an identified access across to the school also provides a clearly identifiable crossing point for regular users to be aware of where people may be using.

I attended the school at several times a week or so ago, both before and as school closed and was pleased to see most parents using the parking and crossing safely. It was a great concern though to see quite a few people dropping off pupils without making any attempt to use the car park, instead, parking up on the roadside. This resulted in vehicles attempting to use the road having to pull out to pass parked vehicles. This caused congestion and confusion as drivers tried to avoid pedestrians crossing the road in varying spots and who had their view obscured and could not see to cross safely.

There are no doubt occasions when due to a whole host of reasons you may be running late to school. However, this is when additional care and concern should be used and safe locations chosen. No-one would wish any harm to occur to our young people, but every time vehicles park on the roadside rather than in the car park, they are greatly increasing the risk of an accident on such a narrow road. When we attended and were visible on Road Safety Week there were no such instances of roadside parking, which shows that safe and considerate parking is possible and can be sustained.

Please, think of everyone attending school and park in a safe location. Thank you".
