We would like to create a parent council in order to capture parent's opinions and views.

The council would meet termly to discuss current issues, and contribute to policy consultation. We hope to attract parents from across the school. The only criteria is that you are a parent of a child at this school. If so you will be the ideal candidate.

Please complete the form below to register your interest.

Growing Healthy North Yorkshire 0-19 Children's Services

It's currently a very difficult time for all colleagues in our Growing Healthy North Yorkshire 0-19 Service. We've provided the 0-19 service in the county for many years and the current contract is

coming to an end in March 2020. North Yorkshire County Council, who commission the service, have seen a reduction in the funding they get for public health and as a consequence of this have had to reduce the amount of funding available for the service. As a Trust we have been considering if we are able to continue to provide the service safely, and what a new model of care would look like within the resource that is available.

The Board has agreed to provide a new service model in principle. It is a very different model to that which we currently provide. NYCC will consider the service model they wish us to provide at their next meeting on 12 March 2020 and this will then be subject to public consultation.

Your support for your child's education is crucial to their progress. Please tell us if there are any adjustments we need to make to help you support your child, for example: letters in large font; letters in different languages; wheelchair access; explaining things over the phone; a discussion with a school colleague of the same gender.
